Objectives and key words

Knowledge:	Key Words (Tier 1, Tier 2, Tier 3):
- I know the main physical features of Asia - I know the main countries in Asia, and where they are - I know many of the capital cities of Asia - I know what a monsoon is, and how it affects climate - I know what floods in Asia can be like (especially compared to the UK) - I know that cities in Asia are changing by looking at satellite images - I know why Asian cities are changing so fast - I know what the mountain biome is like - I know how the mountain biome is changing in Nepal - I know what is happening to the population of Asia - I know some countries are ageing, and are having problems - I know that China has become a very important country for the secondary sector - I know what globalisation is - I know why there has been a lot of migration to Bangalore - I know the challenges and opportunities that people in Bangalore have - I know that newspapers may have bias, and show people's viewpoints - I know what the 'Belt and Road' initiative is - I know how important Asia, and China in particular, is to the future	Asia Region Diverse Urban Rural Biome Slum South Asia Karnataka Interdependence Economic The Silk Road Globalisation Infrastructure

NC link code: A3a, A3b, B2 ,C4,C6,C8,C9,D1,D2

Prior learning: population, development, climate, migration, resources, map skills Prior learning at KS2: Links to place studies on Europe, N and S America.	Future learning: Links to place studies on Africa in Y9 Links to the Development unit at GCSE on India Links to the Unit on the Middle East in Y9
Hypotheses/outcomes for lessons	Geographical skills
LO1 What are the major human and physical features of Asia LO2 What does the monsoon do for India LO3 Why are floods worse in India than the UK LO4 How do Satellite images show how Asia is changing (skills book) LO5 What is life like in a mountain biome LO6 What is happening to the population of Asia LO7 How is trade and globalisation helping China's development LO8 How is Karnataka changing (region) LO9 What can news articles tell us about issues and change in China(skills) LO10 Is China's incredible change a success story How has gender inequality affected population structure/ pyramid in India and China? (video)	Pie charts Maps World maps Photos Timelines Bar charts
Misconceptions	
Students often think that China is a rich country. There is much diversity across Asia, students are often not aware of this	

Success/Assessment
Vocabulary quizzes AFL exam style questions Using blooket/kahoot/quizziz
Employment skills and career opportunity
Aiming high Creativity Leadership Listening Presenting Problem solving Literacy Numeracy Independence Communication teamwork Staying positive Career link: charity fundraiser https://www.unifrog.org/student/careers/keywords/charity-fundraiser
